# PORTRAITS OF MONTHS GIVEN BY PIANISTS

Music" was the theme of the biannual recital of the piano students of Miss Mary Rita Redding. The program opened with a march, "Squadrons in the Air," Irene M. Ritter, a duet by Evelyn Koons and Diane Yealy, as the students, in costume, took their places in St. Aloysius Hall, where the recital took place. A musical score provided the stage background and the recital participants stepped behind a giant size picture frame, which also enclosed the piano, to announce their own numbers.

Miss Redding explained to the approximately 100 in the audience the purpose of a student recital and the program continued as follows: January, "Winter Wonderland," by June Beachtel; February, "Boy Scout Parade," Diane Pa. Are you a worry expert?

Some people gather up all the worries of the past and combine them with the anxieties of the future. These they add to the burdens of the present - a huge bundle indeed.

What a difference it would make in their peace and happiness if they could take each day as it comes.

Jesus said, "Sufficient unto the day is the evil thereof." He not only taught but He lived this lesson. Toil and misunderstanding filled the days of His ministry. Yet He met each one with calm assurance. Forgetting the past, He faced each tomorrow with inward peace.

This peace He willed to His followers through all the ages. Come to church and learn how to make this heritage your own.

ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Casper No bones about it, was there? Bankers think a lot of GAS Central Air the Bassett: Conditioning because it increases the resale value of a home so much.

George: Tell me again what that friend of yours said.

Casper: Only cost him about \$10.00 more a month on his mortgage payments. And don't forget, we want the same thing he got: the Arkla-Servel Central GAS System

that both cools and heats.

George: Sure will be nice. Casper: You should hear this friend of mine rave. He says everyone sleeps better.

The whole family has less of a yen to get out of the house. They spend on an average of \$6.00 a week less for recreation. Their cleaning and laundry bills went down 50%.

He hopes to observe his 40th while serving his first full term in the House. That, however, depends upon the November election. Elliott's opponents again will be Democrat Robert Meyers of Lewistown, whom he defeated handily in the April special election.

The dictionary defines Politics as the science dealing with organization, regulation, and administration of a state in both its internal and external affairs. Three centuries before Christ, Aristotle stressed its high aim when he said: "The good of man must be the purpose of the science of politics."

John Morely, the great English statesman, wisely declared: "Those who would treat politics and morality apart will never understand the one or the other."

However, politics by its very nature presents many temptatious for those who would use it as a selfish stepping-stone to power, prestige, or, worse still, as a means of fraud and corruption.

1. Are we registered voters? 2. Do we vote in every election, general and primary, and encourage others to do likewise?

3. Do we study issues and candidates?

4. Do we know the names and voting records of those who represent us in Congress and the State Legislature, and who do our voting for us? Do we let them know our views and convictions on public and local problems?
